

Unit 2.

2.2. FAQ.

2. Are there any restrictions in a capstone project?

- ▶ In terms of subject, it should be within the boundary of **“Technology for Good”**
 - ▶ They should be of **public interest and/or benefit**.
 - ▶ Highly discouraged stock price forecast, gambling/investment strategy, racing forecast, etc.
 - ▶ Highly discouraged are projects where the primarily value is entertainment.
 - ▶ Highly discouraged are projects where only an individual or a certain company can get benefit from the project result
- ▶ Please, do not limit the capstone project to just what you learned at the classroom.
 - ▶ It should have enough **novelty and uniqueness** aspects.
 - ▶ Highly recommended to do your own research about the problem background and domain.
 - ▶ Highly recommended to do your own research about AI techniques and methods.
 - ▶ Highly discouraged are projects that only prove methods or techniques. (Projects should tackle real world problems)
